What Are the Best Things in Wash Goods?

When you can answer this question, you are going to have kinds that are being used by better trade.

You are going to get just a little better for the price you pay.

If you decide upon our judgment, we recommend without hesitating the following.

There is nothing of better value in our store than our 27-inch Endurance Cloth. This comes in over 25 different colors and styles, in fast colors, and wears better than Gingham and sells at 15c per yard.

Renfrew Devonshire Cloth comes in over 30 different designs. Sunproof and tubproof; comes 32 inches wide. This cloth is being sold by us at 20c per yard. In other cities at 22c and 25c, and a little later we will have to follow their higher prices. Remember, price to-day 20c per yard.

If our goods were bought late, we would have to charge you on all lines more than we are today. Early buying has helped us. It is helping you to better goods at a better price.

There are lots of kinds in our Bargain Basement that if you can use will allow you a good saving.

Spring Millinery was never so pretty as this season. Those who have selected have very pretty Hats. New Shapes, new Trimmings, make these later Hats fully up to early designs. New lot of Misses' Hats just received. Ready for Saturday's rush.

How Juvenile Health Officers Made a Record in Kansas.

In Farm and Fireside is an account of a remarkable health record established in Riley county, Kansas, that is attributed largely to taking school children and their parents into the health officer's confidence. In describing the work Dr. J. C. Montgomery says:

"The health department's work in the schools is greatly aided by an organization of junior health officers. One of these little health officers is elected by the pupils in each district, and he serves during the school year. A certificate is issued to him upon his complying with the rules and regulations. He co-operates with the teacher in looking after and maintaining cleanliness in the school-grounds, the outbuildings, and the playgrounds, and reports to the teacher anything that needs correction, and through the teacher to the health department. The junior health officers are provided with a shield-shaped silver badge of their office, bearing the inscription 'Junior Health Officer,' and the district number. To these officers the department each week sends circulars, which they in turn read in the schools in the respective districts. These are bulletins pertaining to diseases, sanitation, and how to improve the health conditions, personal and public."
